

# Looking for Volunteers!

To participate between February - April 2022

## ADAPTING MALNUTRITION SCREENING PROTOCOLS IN OVERWEIGHT AND OBESE CANCER PATIENTS: A QUALITATIVE STUDY

Research approved by the Oxford Brookes University Research Ethics Committee

**UP TO £30 WORTH OF AMAZON VOUCHERS AVAILABLE  
FOR YOUR TIME!**

### ARE YOU:

- A health professional who has worked with cancer patients?
- Someone who has conducted nutritional screening?
- Someone with access to a telephone or a device which has a microphone that can connect to the internet?
- Happy to contribute at least 60 minutes of your time?

Then you are eligible to participate!

### What are your thoughts of the current protocols in place?

In this study, we want to hear your experiences of using nutritional screening tools in overweight or obese patients that have a cancer diagnosis. We require you to attend **virtually** or through the **telephone** a one to one **interview** and/or a **group discussion** (focus group). You will be compensated for your time with £15 worth of Amazon vouchers for each session. If you attend both sessions, you will receive two vouchers.

For more information to sign up for the study, scan here
